

## *Empowering Passionate Disciples*

### School on the Way

*We believe there is a need for a new way (that is really an old way) of training. To that end our classes gather in a household community as seen in the New Testament house church. While still offering a high level of scholarship, our teaching is a Hebrew style of dialogue and interaction with an emphasis on listening to and obeying what the Spirit is saying.*

#### *Why "on the Way"?*

We are mobile, moving, changing, leaning into, following Jesus as way of life, growing, learning and developing as we go, believing we can disciple the nations thru the New Testament model of house churches.

#### *What is the format?*

The format is dialogue with God and self, along with a community made up of 2 or 3 others, as well as the whole class/group, and those around the world and throughout the centuries. We do life together, eating, listening, praying, studying, meditating, fellowshiping together with the Father, Son and Holy Spirit.

As our training center grows we intend to develop degree and certificate programs.

All School on the Way courses are eligible to earn credit towards these degrees and certificates.

#### *Our specifics goals are –*

To teach teachers thru an educational style that is fully Biblical. We believe this model is the most natural way for teachers to learn how to teach others.

To give teaching its rightful place: Not centralized in a way that takes away from the other gifts of the body, but as part of the fivefold gifts in Ephesians 4: that are for the equipping/supplementing of what God is doing in each house church.

Lastly we believe in all of this we can offer some of the best of College and Grad-school/Seminary in the context of community

## Current Offerings:

### Re-Thinking

#### Genesis 1-11

This class is an intimate and interactive look

at Genesis 1-11. We will explore the wild and terrible, wonderful and mysterious scenes of Genesis.

Among other things you will:

- Learn the difference between Greek and Hebrew thinking
- Find out what God thinks of us (that alone may turn your world up side down)
- Read Genesis in the context of ancient cultures and stories.
- Understand the best translations (and options) of the original language.

- Hear what others thru the centuries have said as they have read/listened to Genesis.
- Listen to what God is saying to and through each other.

### Biblical Hebrew

Imagine the joy of being able to read the books of Moses or the Psalms in the language of their authors! Using a book written especially for adult beginners, we will emphasize recognition and translation—not memorization. Working through this book together will provide enough information and practice to enable you to read most Biblical texts. This class does require outside work each week in addition to our gathering times. We will do plenty of exercises together, along with dialoguing through grammar in order to get you reading and using the

language as quickly and proficiently as possible.

Other classes available include Listening to God, Parenting Teens, and the House Church Movement. Still others are in development all the time.

School on the Way is a ministry of New Wine Community network of house churches. Please contact us for more info on how you can be a part of these exciting training opportunities.
